Professional Summary

Full-Stack Web Developer specializing in **Laravel/PHP systems**, **enterprise applications**, and **backend infrastructure**. Experienced building production-grade applications across public-sector systems, SaaS platforms, and enterprise tooling, with hands-on expertise in **API development**, **database architecture**, **third-party integrations**, and **scalable backend engineering**.

Technical Skills

Frontend: Vue.js, Livewire, Blade, React.js, Next.js (App Router), TypeScript, Tailwind CSS, Redux Toolkit.

Backend: PHP, Laravel, CodeIgniter, RESTful APIs, OOP, SOLID Principles, MVC, Microservices, MySQL.

Infrastructure: Docker, Docker Compose, Vercel, Linux, Self-hosted Deployments, AWS.

AI-Assisted Development: Claude Code, Google Antigravity, Context Engineering.

Other: React Native, Python, Web Scraping, Git.

Professional Experience

Power Information Technology Company - Full Stack Web Developer

Jan 2025 - Present

- Enterprise Complaint Management:** Built and maintained a nationwide electricity platform (CCMS) for consumers, engineers, and operational staff, supporting *role-based workflows* and complaint tracking.
- Operational Workflows & Reporting:** Developed modules for *complaint tracking*, *load-shedding updates*, and *reporting*, enabling operational teams to manage and monitor consumer complaints efficiently.
- Backend Architecture & Performance:** Engineered scalable Laravel and MySQL backend services with *role-based access control*, *database optimization*, and *secure API-driven workflows* for a large-scale public-sector application.

Ilsa Interactive - Backend Developer

March 2023 - Sep 2024

- Laravel Backend Engineering:** Designed and maintained *Laravel-based backend systems* across e-commerce, CMS, and custom business applications, focusing on scalable architecture and reliable API-driven workflows.
- Legacy Modernization & Automation:** Modernized *legacy applications toward microservices-based architecture* and developed automated web-scraping solutions to improve data collection and operational efficiency.

Projects

- Customer Complaint Management System (CCMS)** [CCMS](#)
Built a scalable *Laravel-based complaint management system* supporting *role-based workflows*, complaint tracking, reporting, and operational updates. **Stack:** Laravel 5, MySQL, Bootstrap, jQuery.
- Sciencephilic Learning Management System (CoachSys)** [Coachsys](#)
Developed a comprehensive *LMS for students, teachers, and administrators* with courses, assignments, attendance, online classes, and reporting. **Stack:** Laravel 10, Vue.js, Livewire, MySQL, Bootstrap.
- Shaheen Golf & Country Club Patenga (SGCCP)** [SGCCP](#)
Developed *member registration, billing, tee-time booking, and event management workflows* with responsive administrative services. **Stack:** Laravel 10, MySQL, Bootstrap.

Key Systems

MIS-SPO (Management Information System for Social Protection Organization)

[MIS SPO](#)

Built a comprehensive *Laravel-based management information system* featuring multi-role approval workflows, geographic hierarchy management, project lifecycle tracking, donor management, and export-ready reporting.

Stack: Laravel 11, PHP 8.5, MySQL, Bootstrap 5, Spatie RBAC, jQuery.

Education & Certifications

Bachelor of Science in Computer Science (BSCS) - The University of Lahore (Graduated 2025 / 3.63 CGPA)

- Big Data** - PNY Trainings, 2022
- Machine Learning** - PNY Trainings, 2022
